

Ballot Initiative to Audit the MA Legislature

State Auditor Diana DiZoglio audits Beacon Hill

- The Massachusetts State Auditor is independently elected by the voters of the state and is tasked with auditing over 200 state departments, agencies, and entities.
- Every state entity has cooperated with regular audits by the State Auditor except for one: **the Massachusetts State Legislature.**
- Despite a long history of being audited, current Beacon Hill leaders are now refusing to be audited.
- During this time of reduced transparency, we've seen power centralized on Beacon Hill and a lack of accountability surrounding the use of our tax dollars.

- We deserve to know how our tax dollars are being spent and ask voters to make it crystal clear: the State Legislature should comply with an audit.
- Over 13,000 voters must sign the petition to have this question placed on the 2024 ballot.
- If approved, it would more explicitly compel the Legislature to participate in these audits that promote transparency, accountability, equity, and accessibility.

**WHAT WE NEED:
13,000 Signatures by June 14, 2024.**

**WHY WE NEED THEM:
To get this question on the November 2024 Ballot that would allow voters to tell the Legislature we expect transparency and accountability from Beacon Hill.**
